Detail-oriented Full Stack Engineer with a passion for crafting elegant and efficient web solutions. Proficient in React, Node.js, Express.js, and MongoDB. Eager to contribute to innovative projects.

WORK EXPERIENCE

Full stacks **Jan 2024 - Present**
Freelancer **Hanoi, Vietnam**
- Developed and optimized database queries, reducing backend response times, leading to a smoother user experience.
- Participated in code reviews and provided valuable feedback, leading to a reduction in bugs and enhanced code quality.
- Assisted in developing a comprehensive documentation system for the codebase, improving onboarding for new team members
- Collaborated with the UX/UI team to optimize the user interface, resulting in an overall improvement in user satisfaction.
- Developed and implemented new features

Intern Frontend **Oct 2023 - Dec 2023**
Ocean Tech **Hanoi, Vietnam**
- Assisted in the migration of legacy code to newer frameworks, enhancing maintainability and codebase stability while minimizing technical debt.
- Implemented a modular and scalable CSS architecture using the BEM (Block Element Modifier) methodology, which reduced the CSS file size and made maintenance easier for future developers.
- Developed and implemented new frontend features, resulting in an increase in user engagement.

Intern **Aug 2023 - Oct 2023**
Samsung R&D Center Vietnam **Hanoi, Vietnam**
- Trained in data structures and algorithms, resulting in an increase in efficiency.
- Development of features for mini Android projects.
- Completed assigned tasks from the team leader within the specified timeframe.
- Participated in **Samsung Software Testing Certification Programming Contest** and earned a **Certification**.

EDUCATION

Telecommunication - Electronic Engineering **Oct 2019 - Aug 2024**
Academy of Cryptography Techniques **GPA:** 3.0/4.0
- Received the Merit-Based Scholarship for Academic Excellence (Semester 1, 2022-2023)
- Participated in scientific research at the school twice and achieved high results

PROJECTS
